

Calpain 12 Polyclonal Antibody

CAPN12. AA range:221-270 Specificity Calpain 12 Polyclonal Antibody detects endogenous levels of Calpain 12 protections. Calpain 12 Polyclonal Antibody detects endogenous levels of Calpain 12 protections. Calpain 12 Polyclonal, Rabbit,IgG Purification The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen. Dilution Western Blot: 1/500 - 1/2000. ELISA: 1/5000. Not yet tested in other application of mg/ml Purity 290% Storage Stability -20°C/1 year Synonyms CAPN12; Calpain-12; Calcium-activated neutral proteinase 12; CANP 12 Observed Band 80kD Cell Pathway intracellular,cytoplasm, Tissue Specificity Thalamus, Function catalytic activity:Broad endopeptidase specificity,,function:Calcium-regulated non-lysosomal thiol-protease, similarity. Belongs to the peptidase C2 family, similarity:Contains 1 calpain catalytic domain., similarity:Contains 1 EF-hand domain., Background The calpains, calcium-activated neutral proteases, are nonlysosomal, intracellular cysteine proteases. The mammalian calpains include ubiquitous, stomach-specific, and muscle-specific proteins. The ubiquitous enzymes cons		
Reactivity Human;Rat;Mouse; Applications WB;ELISA Gene Name CAPN12 Protein Name Calpain-12 Immunogen The antiserum was produced against synthesized peptide derived from human CAPN12. AA range;221-270 Specificity Calpain 12 Polyclonal Antibody detects endogenous levels of Calpain 12 protection Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide. Source Polyclonal, Rabbit, IgG Purification The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen. Dilution Western Blot: 1/500 - 1/2000. ELISA: 1/5000. Not yet tested in other application to mg/ml Purity ≥90% Storage Stability -20°C/1 year Synonyms CAPN12; Calpain-12; Calcium-activated neutral proteinase 12; CANP 12 Observed Band 80kD Cell Pathway intracellular, cytoplasm, Tissue Specificity Thalamus, Function catalytic activity. Broad endopeptidase specificity, function: Calcium-regulated non-lysosomal thiol-protease, similarity. Belongs to the peptidase C2 family, similarity. Contains 1 calpain catalytic domain., similarity. Contains 1 EF-hand domain. Background The calpains, calcium-activated neutral proteases, are nonlysosomal, intracellular cysteine proteases. The mammalian calpains include ubiquitous, stomach-specific, and muscle-specific proteins. The ubiquistous enzymes consistence and muscle-specific proteins. The ubiquitous enzymes consistence and muscle-specific proteins.	Catalog No	BYab-02522
Applications WB;ELISA Gene Name CAPN12 Protein Name Calpain-12 Immunogen The antiserum was produced against synthesized peptide derived from human CAPN12. AA range:221-270 Specificity Calpain 12 Polyclonal Antibody detects endogenous levels of Calpain 12 prot Formulation Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide. Source Polyclonal, Rabbit, IgG Purification The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen. Dilution Western Blot: 1/500 - 1/2000. ELISA: 1/5000. Not yet tested in other application of the printing of the printing specific production of the production of the production of the printing specificity of the peptidase C2 family, similarity. Belongs to the peptidase C2 family, similarity. Contains 1 calpain catalytic domain., similarity. Contains 1 calpain catalytic domain., similarity. Contains 1 calpain catalytic are nonlysosomal, intracellular cysteine proteases. The mammalian calpains include ubiquitous, stomach-specific, and muscle-specific proteins. The ubiquitous enzymes constant of the proteins of the period of the printing stomach-specific and muscle-specific proteases. The mammalian calpains include ubiquitous, stomach-specific, and muscle-specific proteins. The ubiquitous enzymes constants of the printing stomach-specific and muscle-specific proteins. The ubiquitous enzymes constants of the printing stomach-specific and muscle-specific proteins. The ubiquitous enzymes constants of the printing stomach-specific and muscle-specific proteins. The ubiquitous enzymes constants of the printing stomach-specific and muscle-specific proteins. The ubiquitous enzymes constants of the printing stomach-specific and muscle-specific proteins. The ubiquitous enzymes constants of the printing stomach-specific proteins. The ubiquitous enzymes constants of the printing s	Isotype	IgG
