

## IKKα/β (phospho Ser180/181) Polyclonal Antibody

Specificity         Phospho-IKKα/β (S180/181) Polyclonal Antibody detects endogenous levels of IKKα/β protein only when phosphorylated at S180/181.           Formulation         Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.           Source         Polyclonal, Rabbit,IgG           Purification         The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.           Dilution         WB: 1/500 - 1/2000. IHC: 1/100 - 1/300. ELISA: 1/20000 IF 1:50-200           Concentration         1 mg/ml           Purity         ≥90%           Storage Stability         -20°C/1 year           Synonyms         CHUK; IKKA; TCF16; Inhibitor of nuclear factor kappa-B kinase subunit alpha; I-kappa-B kinase alpha; IKK-A; IKK-alpha; IkBKA; IkappaB kinase; Conserved helix-loop-helix ubiquitous kinase; I-kappa-B kinase 1; IKK1; Nuclear factor NF-kappa-B           Observed Band         85kD           Cell Pathway         Cytoplasm . Nucleus . Shuttles between the cytoplasm and the nucleus.           Tissue Specificity         Widely expressed.           Function         catalytic activity;ATP + [I-kappa-B protein] = ADP + [I-kappa-B phosphorylated and inactivated when phosphorylated when phosphorylated when phosphorylated in for the IKK complex in		
Reactivity Human; Mouse; Rat  Applications WB; IHC; IF; ELISA  Gene Name CHUK/IKBKB  Protein Name Inhibitor of nuclear factor kappa-B kinase subunit alpha  Immunogen The antiserum was produced against synthesized peptide derived from human IKK-alpha/beta around the phosphorylation site of Ser180/181. AA range:151-200  Specificity Phospho-IKKa/B (S180/181) Polyclonal Antibody detects endogenous levels of IKKa/B protein only when phosphorylated at S180/181.  Formulation Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.  Source Polyclonal, Rabbit, IgG  Purification The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.  Dilution WB: 1/500 - 1/2000. IHC: 1/100 - 1/300. ELISA: 1/20000 IF 1:50-200  Concentration 1 mg/ml  Purity ≥90%  Storage Stability -20°C/1 year  Synonyms CHUK; IKKA; TCF16; Inhibitor of nuclear factor kappa-B kinase subunit alpha; I-kappa-B kinase alpha; IKK-A; IKK-alpha; IkBKA; IkappaB kinase; Conserved helix-loop-helix ubiquitious kinase; I-kappa-B kinase 1; IKK1; Nuclear factor NF-kappa-B defined between the cytoplasm and the nucleus.  Tissue Specificity Widely expressed.  Cell Pathway Cytoplasm . Nucleus . Shuttles between the cytoplasm and the nucleus.  Function catalytic activity. ATP + [I-kappa-B protein] = ADP + [I-kappa-B phosphorylated], enzyme regulation: Activated when phosphorylated and inactivated when dephosphorylated, function: Acts as part of the IKK complex in the conventional pathway of NF-kappa-B activation and phosphorylates inhibitors of NF-kappa-B tus leading to the dissociation of the inhibitor. Kerpa-B complex and ultimately the degradation of the inhibitor. As papa-B complex and ultimately the degradation of the inhibitor. As papa-B complex and ultimately the degradation of the inhibitor. 	CHUK/IKKA homodimer phosphorylates NFKB2/p100 associated with RelB, inducing its proteolytic processing to NFKB2/p52 and the formation of NF-kappa-B RelB-p52 complexes. Also phosphorylates NCOA3. Phosphorylates 'Ser-10' of histone H3 at NF-kappa-B-regulated promoters during inflammatory responses triggered by cytokines.,PTM:Phosphorylated by MAP3K14/NIK, AKT and to a lesser extent by MEKK
Background	This gene encodes a member of the serine/threonine protein kinase family. The encoded protein, a component of a cytokine-activated protein complex that is an inhibitor of the essential transcription factor NF-kappa-B complex, phosphorylates sites that trigger the degradation of the inhibitor via the ubiquination pathway, thereby activating the transcription factor. [provided by RefSeq, Jul 2008],
matters needing attention	Avoid repeated freezing and thawing!
Usage suggestions	This product can be used in immunological reaction related experiments. For more information, please consult technical personnel.
